1. The
consideration to
the aspect of a
school space can
result in better
learning
environments
for students and
teachers.

2. Use warmer
tones in
northerly or
eastern facing
rooms and
cooler shades in
southerly warmer
spaces.

3. Reduce glare
from bright
windows by
placing a feature
wall colour
opposite the
window. this will
absorb the light
and glare.

*Colour creates, enhances
and changes perspective.*
