THE EVOLUTION OF COLOUR TRENDS

Every year, Dulux Trade and a team of acclaimed international forecasters identify global trends that look set to shape our lives and our environments over the coming years. Our colour experts then translate these insights into a Colour of the Year and a series of palettes that will respond to those future needs, providing decorators with a collection of on-trend, contemporary colours that will resonate with their customers.

COLOUR OF THE YEAR 2024

SWEET EMBRACE™

A gentle blossom pink that is welcoming and brings a sense of stability, calm and softness to any living space. It's a delicate shade that changes tone with the light but always brings warmth. As well as being a subtle and sophisticated stand-alone shade, our Colour of the Year also provides a solid foundation for a wealth of other shades.

PALETTES

This year, Dulux Trade has developed three palettes around Sweet Embrace™, offering easy to use colour combinations that can create a variety of different moods for any project. These colour collections offer decorators a range of flexible, on trend options that can transform the way customers feel in living and working spaces.

EDUCATIONAL SPACES

Upbeat and inviting, a palette of modern ochres and soft lilacs is perfect for creating a friendly feel in a school building, creating a joyful and energetic environment that can help students feel positive and motivated.

UPLIFTING COLOURS FRIENDLY SPACES

Colours: Dreamy, upbeat ochres and lilacs that are perfect for creating a dynamic and uplifting feel.

Relevance: The knock-on effects of the pandemic are still being felt and continue to affect young people's mental health¹. Creating a joyful, comfortable learning environment can help motivate students and reduce stress².

Result: These joyful tones can create a friendly and welcoming backdrop without overpowering a space. They are perfect for adding personality to an assembly hall, corridor or classroom.

OFFICE SPACES

As well as creating a calming and clarifying feel that can boost concentration, a palette of fluid greens and blues can help soften an office environment, making it a more inviting space where employees can feel relaxed and inspired.

Sapphire Salute 50BB 08/171 Sweet Embrace™ 70RR 64/034 Serene Waters 30BG 56/045 Tranquil Dawn™ 45GY 55/052

CALM COLOURS QUIET SPACES

Colours: Soft blues and greens to create a calming, clarifying feel.

Relevance: With the ongoing trend for hybrid working³, people are demanding more from their workspaces. To encourage employees into the office, it makes sense for companies to embrace a people-centric approach⁴. In a busy, digitised office, providing spaces where people can relax also helps boost workplace productivity⁵.

Result: Echoing the colours of nature, these fluid tones offset the sterile feel of a tech-dominated space and help create an environment employees want to spend time in.

Recalling the colours of nature, these fluid blues and greens can help make a workspace feel softer and more inviting.

RESIDENTIAL SPACES

Warm, comforting and familiar, a palette of natural earth tones can help create a space that feels in touch with the landscape, helping make a home feel a natural part of the surrounding environment.

Cashmere Throw 30YY 51/098 Peanut Butter 96YR 33/309 Sweet Embrace™ 70RR 64/034 Fireside Embers 54YR 22/344 Pink Sandstone 12YR 40/146

WARM COLOURS COMFORTING SPACES

Colours: Global earth tones that can create a warm, familiar and comforting feel.

Relevance: Feeling a sense of belonging is a key human need⁶ and people are seeking spaces where they feel relaxed and part of the bigger picture.

Result: These warm colours can work in isolation or together to bring a cocooning and cosy feel to a residential space. Inspired by natural earth tones, this palette of rich organic shades connects us with nature's raw materials and helps create an environment that feels familiar and part of the surrounding landscape.

Well-designed healthcare spaces can improve patient outcomes, so creating an environment beneficial to patients, visitors and staff is a must. Nature-inspired blues and greens can help create a calming, restorative feel.

CALM COLOURS

QUIET SPACES

Colours: Inspired by the tones of woodlands and seascapes, a natural palette of blues and greens that can help create a calming, connected feel.

Relevance: There is strong evidence to suggest that well-designed healthcare facilities have measurable positive outcomes, helping patients recover sooner, improving patient and visitor experience and increasing staff effectiveness in their care⁷.

Result: Subtle and soothing, this restorative palette echoes the colours of a natural landscape, helping patients, visitors and staff feel less stressed.

HOSPITALITY SPACES

Hotel, restaurant or gallery – hospitality spaces need to look appealing and feel welcoming. Upbeat, warm tones can help create the kind of settings where people want to gather with friends and family, and feel relaxed.

UPLIFTING COLOURS FRIENDLY SPACES

Colours: Light, upbeat pastel tones that are perfect for creating a dynamic colour scheme and an uplifting feel both inside and out.

Relevance: There is a primal need for play and, in today's world, people have a growing appetite for playfulness, optimism and light relief⁸. Hospitality spaces looking to distinguish themselves need a wow factor⁹.

Result: This friendly colour palette, with its potential for dynamic contrasts, is perfect for adding a touch of playfulness and individuality to all kinds of hospitality spaces.

WARM COLOURS COMFORTING SPACES

Colours: Coordinating global earth tones for a familiar and inviting feel.

Relevance: Hospitality is all about warmth and welcome so any hospitality space needs to offer a sense of comfort and reassurance. Today, rather than cool grandeur, people are looking for an elevated but comfortable home-from-home feeling¹⁰.

Result: These warm colours can be used on their own or layered together to create a cosy ambiance in places where people want to come together, connect with family and friends and feel relaxed.

COMMERCIAL COLOUR SERVICES

Our Commercial Colour Services team can help you create harmony between your space and the role it fulfills. From vibrant and dynamic to calm and focused, choosing the right colour scheme is key to delivering your brief's objectives.

Step 1: Brief - email & photos

Contact your Dulux Trade representative. They will gather all the necessary information about the space in question, including digital photographs if possible, and pass the information to the Dulux Trade Commercial Colour Services team.

Step 2: Design service level confirmed and process activated

The brief will then be handed over to the designers from the Commercial Colour Services team via email. Depending upon the size and scale of the project, the Commercial Colour Designer will then arrange a site visit, telephone call or video consultation if required.

Step 3: Design research & development

The Commercial Colour Services team will immerse themselves in the project, research its background, analyse its elements and use their knowledge, experience, and flair to create an original yet appropriate colour scheme.

Step 4: Design presentation

The resultant colour schemes will be presented to you in the format most appropriate for your project or client: digitally coloured imagery, printed mood boards or bespoke colour cards.
